### **Chef Lisa's Tip: Mashed Potatoes**

Bored of making run-of-the-mill mashed potatoes? Toss some roasted garlic and a nice dicing of chives into next Monday's mash to take those Yukon Golds all the way to flavour town! Looking for a potato alternative? Try blending boiled cauliflower with Greek yogurt and Parmesan – your kiddies will never know the difference! I won't tell if you won't!

# What We Stand For

**OUR FOOD IS CLEAN** — free of chemicals, additives, preservatives and unnecessary refined sugars, salt and fat.

**WE PROVIDE A GRAB N' GO SNACK** for the children to take with them on their trip home.

Kidco Kitchen Fun Fact: Tandoori

The word "tandoori" originates from the word tandoor — a cylindrical clay oven that heats charcoal and wood at high temperatures made popular in South Asia and the Middle East. Although our dish is not cooked in a tandoor, it is seasoned with traditional tandoori spices including ginger, turmeric, paprika, garam masala and curry powder. This magical blend gives our dish a remarkably smoky flavour. Holy smokes that's good!

#### Chef Lisa's Tip: Fish

The Kidco Kitchen always has fish on the brain! That's because fish contains plenty of omega-3 fatty acids as well as vitamins D and B2. Fish is also rich in calcium and a fantastic source of minerals such as iron, zinc, iodine, magnesium and potassium. Just keep swimming and incorporate Fish Fridays into your weekly family routine!

### Kidco Kitchen Fun Fact: Corn

Bet you didn't know that corn is a delectable math tool for your kiddies! They can learn to count forever with an average of 800 kernels on a single cob! Not to mention that each ear of corn will always contain an even number of rows! If that doesn't count as nature trying to teach math, I don't know what does!

### **Chef Lisa's Tip: Veggies**

We all know that eating veggies is good for you, but it is often a daunting task just getting your kiddies to try them! Apart from setting an example, try making visually stimulating dishes by cutting their veggies into shapes or arranging their food in patterns. Make the plate colourful by including a variety of different vegetables with interesting flavours and textures!

### **Kidco Kitchen Fun Fact: Coconut**

Coconuts are truly versatile as all their parts can be used! The meat can be eaten and coconut water is full of electrolytes that rejuvenate our bodies. The delicious milk coconuts produce is a great substitute for our dairy-free friends! Even the fuzzy hair on a coconut is valuable for producing rope and brushes as their fibers are strong like no other!
